

Paradise

Tq

I kinda wanna drive Lexuses
Sit back and live life high with the best of shit
With a fist full of ice in my president
And a pocket full of debbies that you can't imagine
Guaranteed to make the best of it
To have a yacht on a lake with water beds in it
And a whole lot of women just singin' to my shit
With their hands up in the audience screamin' they want it
When I was a lot younger
I liked to sit up at the park and drink on St. Ides
Drunk as fuck I used to wonder why?
Some niggaz roll sixty-four's on D's
And some niggaz let their khakis hang till their knees
Will I end up just like one of these?
Or smoke trees overseas and rock Wimbley
Bring back a black Bentley full of Hennessey
And Earl Gray tea sippin' it with Naomi
And they on me I wonder how it happened so fast
To go from thirty-three B to first class laughing
And all you hatas' are hurt bad imagine
I kinda wanna drive Lexuses
Sit back and live life high with the best of shit
With a fist full of ice in my president
And a pocket full of debbies that you can't imagine
Guaranteed to make the best of it
To have a yacht on a lake with water beds in it
And a whole lot of women just singin' to my shit
With their hands up in the audience screamin' they want it
Before I go to sleep at night
I say a prayer to the Lord above
And I'm hoping that he shows me love
'Cause my shit be hot enough
To have a whole world dancin'
Smokin' weed on the beach in the sand and
All my ladies look well in Chanel and Donna
If I trip they got my bail so farewell your honor
Ain't got no time for drama
Too busy chillin' with the mamas in the Bahamas

And everybody got they own bag of ganja
And you can go and roll a bleezie if you wanna
Ain't got to worry 'bout nobody all up on yeah
I kinda wanna drive Lexuses
Sit back and live life high with the best of shit
With a fist full of ice in my president
And a pocket full of debbies that you can't imagine
Guarenteed to make the best of it
To have a yacht on a lake with water beds in it
And a whole lot of women just singin' to my shit
With their hands up in the audience screamin' they want it
Give me a house in Fayetteville
And a blue five hundred
Next door to Evander
In the tub with Michelle and Samantha
And a black pet panther
You ring the doorbell I don't answer and you can't stand it
And you askin' "T Q why you act that way?"
'Cause it's too many hatas' with some to say
I'm too busy blowin' up with my homeboy J
Hey yeah
I kinda wanna drive Lexuses
Sit back and live life high with the best of shit
With a fist full of ice in my president
And a pocket full of debbies that you can't imagine
Guarenteed to make the best of it
To have a yacht on a lake with water beds in it
And a whole lot of women just singin' to my shit
With their hands up in the audience screamin' they want it
I kinda wanna drive Lexuses
Sit back and live life high with the best of shit
With a fist full of ice in my president
And a pocket full of debbies that you can't imagine
Guarenteed to make the best of it
To have a yacht on a lake with water beds in it
And a whole lot of women just singin' to my shit
With their hands up in the audience screamin' they want it
