

# Baby Get Lost

## Elysian Fields

Hold out for the day  
You beg me to stay  
How common of me  
Not to rise above  
And I try to deny  
This gauzy reverie  
    Baby get lost  
    Baby get lost  
    Don't trust to forget  
    The love that's mislaid  
    I can't rely  
    Perhaps I can't decide  
    For this train never arrives  
    And all of my lines have been stolen  
    Baby get lost  
    We're more than you could ever imagine  
    Baby get lost  
    Well force the earth and laugh as we crash in  
        How gravid the moon  
        On the cusp of the sea  
        Buttering me up  
        For all that isn't mine  
        And how it petrifies  
        Baby get lost  
    We're more than you could ever imagine  
    Baby get lost  
    We'll force the earth and laugh as we crash in
