

East of Anywhere

Lamy

 Feelin' lost in familiar places
 Havin' fallen from a few good graces
 So many sandy years, dusted and wasted
 How, from there did I get here?I wanna be east of anywhere
 Take me out of the everywhere into the here
 Sublime to ride, reside up high in the wide-open big sky country
 Sweet space to satisfy meAlone on the front line of life with no foundation
 Return to my train of thought but I miss the station
 Wake up every morning heading for yesterday
 How do I make all my troubles go far away?I wanna go east of anywhere
 Take me out of the everywhere into the here
 Sublime to ride, reside up high in wide-open big sky country
 Sweet space to satisfy meIt was easier for me to see without looking too far
 The more that it changes, the more it stays the same
 Plus ca change, plus c'est la meme chose
 And so it goes, nobody knows why we're hereI wanna go east of anywhere
 Take me out of the everywhere into the here
 East of anywhere
 Take me out of the everywhere into the here
 Sublime to ride, reside up high in wide-open big sky country
 Sweet space to elevate me, sweet space to satisfy me
 Sweet space to be when I've become
 Sweet fate only knows when I will be doneInto the here, into the here
 East, into the here, east, into the here
 East of anywhere
 Take me out of the everywhere into the here
 Sublime to ride, reside up high in wide-open big sky country
 Sweet space to elevate meSweet space into the here
 Sweet space into the here
