

Ragoo

Kings of Leon

I want to say it's to me to change the world
And I wanna play till they kicking down the doors
And I'll be alright as long as I ain't seen it all
And I'ma hold you tight to that night we had a ball
We had a ball Here's to the kids out there smoking in the streets
They're way too young but I'm way too old to preach
They know it all but they still ain't seen the truth
Just play my song and I'll show it all to you Either way you caught me with your lyin'
You caught me whilst a lyin'
You caught me with my pants down My papa's slave had to go and fight the war
He'd beat 'em all then he took 'em all to court
My papa called and he said do you remember me
Now he's working awful hard at his factory Either way you caught me with your lyin'
You caught me whilst a lyin'
You caught me with my pants down We hang even into the ocean
We been running barefoot this spring
We been running barefoot through this spring
We hang even into the ocean (We ain't even been to the ocean
We been running barefoot in the stream
We been running barefoot through this street
We hang even into the ocean)
