

3 Legged Animals

Califone

Hands fit together like medicine
Butterfly itch on a bottle rocket tail everything is bleeding
Shake the glass out of your hair
Spell your name in broken teeth

3 legged animals
Shut their sweet eyes lick your scars and grow wings
Sleep for me sleepless
Dream for me dreamless

Hands bleed together fine
Sweat off your makeup
Peel and wait in washed out gold
Ease back warm electric chair
Leave your memories we're almost new
Sleep for me sleepless
Dream for me dreamless
Sleep for me sleepless
Dream for me dreamless
