

Daybreaker

[Beth Orton](#)

We lay on our backs in the grass
Silently watching the rain clouds move by far too fast
You said it was a night where anything could happen
But nothing was gonna last And we're doing fine now yeah we do
We don't feel sad or bad or blue and you know
We ain't never defeated
Not broken inside all that is fine
All that is fine We, we burn our boats each new year
Silently watching the flames and the old life disappear
We're burning new sunrise into yesterday's skies
An ashen fingerprint melts into the sea And we're doing fine now yeah we do
We don't feel sad or bad or blue and you know
We ain't never defeated
Not broken inside all that is fine
Yeah all that is fine
