

# Open Up Your Eyes

## Flying Colors

Yeah  
All-4-One  
Uh, here we go  
I saw you yesterday  
And you tried to not see me  
But as our eyes said hello  
I wondered if we'd ever be close  
Cuz you keep playing  
Games with me  
Telling me you're feeling me  
I just want to believe you're down with me  
But I can't let myself be so naive  
What's it gonna take to make you serious  
Is it love? It is trust?  
Baby won't you take a chance on us  
How can I make you feel just the way I do  
I keep giving you the sign  
But you gotta open up your eyes  
You called me to explain  
Why you couldn't talk to me  
You said that you needed space  
And now you say that you still want me  
If it's love you want  
If it's love you need  
Why can't you see  
  
That we could be  
Everything you want  
And everything that you need  
Girl open up your eyes and you will see  
What's it gonna take to make you serious  
Is it love? It is trust?  
Baby won't you take a chance on us  
How can I make you feel just the way I do  
I keep giving you the sign  
But you gotta open up your eyes  
Girl I wish that you would just make up your mind  
Cuz it seems to me we're running out of time  
Baby I'm tired of all your alibis

And I wish that you'd just open up your eyes  
What's it gonna take to make you serious  
Is it love? It is trust?  
Baby won't you take a chance on us  
How can I make you feel just the way I do  
I keep giving you the sign  
But you gotta open up your eyes  
What's it gonna take to make you serious  
Is it love? It is trust?  
Baby won't you take a chance on us  
How can I make you feel just the way I do  
I keep giving you the sign  
But you gotta open up your eyes
