

# Sexy Mistake

## Grey`s Anatomy 2

If you kiss me I will do nothing  
You can do what you like to please me  
I have a choice so I threw you away  
You stood there are asked me to stay  
What's a girl to do?  
I was mixed up so confused  
What did I just say  
What did she just say  
I will regret this every day  
I don't want to see because I  
Wonder was it would have been like  
I think you were cruel and vain but I want  
You to kiss me when I want  
What did I just say  
What did she just say  
I'm gonna practice every day  
But oh guess what, I know your secret  
And do you know if I will keep it  
But oh I might  
I think you know how you deserve this  
If you kiss me I will feel nothing  
You can do what you like to please me  
I have a choice so I threw you away  
You stood there are asked me to stay
