My Only Enemy

American Hi-fi

I don't ever try to keep the love alive
You found the frequency, you sucked it out of me
I'm not the only one to hold a smoking gun
You felt the gravity you think you're finally free
I don't even know which way it outta go
Get out before you drown before they bring us down
It's all inside of me my only enemy
You sucked it out of me, you fucked it outta me
Watch the world turn on
Watch the world turn on
Watch the world turn on
My only enemy
I want it all before you go
I want it all before you go
I want it all before you go
I don't ever try to keep the love alive
You found the frequency, you sucked it out of me
You sucked it out of me, you sucked it out of me
My only enemy, my only enemy
Watch the world turn on
Watch the world turn on
Watch the world turn on
My only enemy
My only enemy
My only enemy
My only enemy
My only enemy
Well fuck you
Well fuck you
