

'Til I Whisper U Something

Sinead O'Connor

Sure hate to see u looking so sad
Delicate man it needn't be that bad
U sit with me and I will listen
You'll feel much better when u open
U said all u want was a good time
It's a big hill u have to climb
And u got to be willing
U stand tall and u be strong
U have ruthless compassion
For yourself and everyone
Yeah it's hard but it can be done
I know you're every right to feel grief
You've not had anything that u need
But u put your head on my shoulder
'Till I whisper u something
'Till I whisper u something
It don't take much to have a good time
A lot of lovemaking and a little wine
And u got to be willing
U stand tall
U have ruthless compassion
For yourself and everyone
Yeah it's hard but it can be done
U put your head on my shoulder
'Till I whisper u something
'Till I whisper u something
It's a long walk towards a good time
Like a big hill u have to climb
And u got to be willing
It don't take much to have a good time
A lot of lovemaking and a little wine
And u got to be willing
If you've never seen a good time
If you've never seen a good time
If you've never seen a good time
How would u recognise one
How would u recognise one
How would u even find one
How would u, if you've never seen a good time

If you've never seen a good time
If you've never seen a good time
How would u recognise one
