

I Got News for You

OFF!

You think you're the king of the scene that you created.

I got news for you.

Did you expect us to worship at your feet?

I got news for you, I got news for you. You bet I got something against you, too.

All my friends that you have screwed. We trudged through sweat and piss,

Were never paid for this.

I got news for you, I got news for you. You bet I got something against you, too.
