

# Golden Dawn

## The Legendary Pink Dots

One golden dawn  
One summer night  
With nothing left to sayWe let the dream begin  
It was carried on the wind  
And it wandered awayOne golden sky  
One spark of light  
Forever will remainAnd the song of the storm  
Brought us close, kept us warm  
All alone making love  
In the rainGone is the world outside  
Home on the turning tide  
True love will find the sun  
And know the reason whyYou make me hunger for  
You whispered, "Mi amor"  
Over the ocean's roar  
And the night will become  
Our golden dawnTwo hearts as one  
No tears to cry  
With you I have it allIf love can never die  
I'm not afraid to fly  
But how far must I fallOne silver song  
One lullaby  
For all the love we makeIt's the look in your eyes  
It's the moon on the rise  
It's the sound of the heart  
That you breakGone is the dark of night  
Call on the early glow  
Send down the birds of love  
That circle us belowAnd still I will hunger for  
You whispering, "Mi amor"  
Over the ocean's roar  
And your arms reach for meAnd the shine on the sea  
And the night will become  
Our golden dawn
