

Kiss Me Like a Stranger

Thomas Rhett

Busy working hard, wrapped up in my job, we got bills to pay
Lately, when we talk, it feels like I don't hear a single word you say
 Can we get back to the basics
 And find that young love and make it
Tear down all these walls, ignore all of our calls, and just stay inKiss me like a stranger
 Baby, hold me like we've never met
 Every touch, a little danger
 Like you ain't gotten used to me yet
 Strike a match, light the fuse
You and I, we could use some reckless behavior
 So, baby, kiss me like a stranger
 Ooh Ooh OohLightning on my skin
 Every touch remembering what you mean to me
Let me reminisce my lips on your lips like a symphony
 You're playing on my heartstrings
 Kiss me like a stranger
 Baby, hold me like we've never met
 Every touch, a little danger
 Like you ain't gotten used to me yet
 Strike a match, light the fuse
You and I, we could use some reckless behaviorSo, baby, kiss me like a stranger
 It's been a little crazy lately, come on and remind me, baby
 Well, girl, don't keep me waiting
Come on over my way and lay it on meAnd kiss me like a stranger
 Baby, hold me like we've never met
 Every touch, a little danger
 Like you ain't gotten used to me yet
 Strike a match, light the fuse
You and I, we could use some reckless behavior
 So, baby, kiss me like a stranger
 Ooh, won't you kiss me, won't you kiss me
 Won't you kiss me like a stranger
 Mmm, yeah, won't you kiss me like a stranger
 Ooh, I got plans for you, I got plans for you
 I got plans for you, I got plans for you
 Kiss me like a stranger
 I feel it now, ooh, I feel it now, ooh, I feel it now, ooh
