Dance Floor (part 2)

Youngstown

C'mon, Youngstown, get down, get downThere's no reason why the two of us should be alone
Baby, come and lemme show you what you came here for
Baby girl, I'm tired of waitin' for your favorite song
You've been starin' at me since I walked through the door
Meet me on the dance floorI'm in the club feelin' alright
'Cause tonight I'm with my crew
Just chillin', hittin' it with Youngstown
You know how we get down, then I saw youInstantly felt your eyes around me
All around me, I feel your vibe
And yet you're actin' as if you're scared
Standin' over there, baby, don't be shyThere's no reason why the two of us should be alone
This feelin's so strong, so baby, bring it on
Baby, come and lemme show you what you came here for
'Cause it's you I adore, so meet me on the dance floorBaby girl, I'm tired of waitin' for your favorite song
Just come follow my lead, so we can get it on
You've been starin' at me since I walked through the door
And baby, I can't take no more, meet me on the dance floorI feel the heat as you approach me
Lookin' lovely, you're so lovely
Heart's beatin' fast as you come closer
Thinkin' that I want ya, my mind's racin'Thinkin' about the things that we could do
Just me and you, it would be so right
So let your friends chill at the table
'Cause baby, you're mine tonightThere's no reason why the two of us should be alone
This feelin's so strong, so baby, bring it on
Baby, come and lemme show you what you came here for
'Cause it's you I adore, so meet me on the dance floorBaby girl, I'm tired of waitin' for your favorite song
Just come follow my lead, so we can get it on
You've been starin' at me since I walked through the door
And baby, I can't take no more, meet me on the dance floorMeet me on the dance floor
I'll make your body want more
I just wanna feel the heat, make you move your feet
Make ya dance 'til your back is soreMeet me on the dance floor
I'll make your body want more
If you ain't come to dance all night then you ain't right
Take your body out the doorThere's no reason why the two of us should be alone
This feelin's so strong, so baby, bring it on
Baby, come and lemme show you what you came here for
'Cause it's you I adore, so meet me on the dance floorBaby girl, I'm tired of waitin' for your favorite song
Just come follow my lead so we can get it on

You've been starin' at me since I walked through the door
And baby, I can't take no more, meet me on the dance floorThere's no reason why the two of us should be alone
This feelin's so strong, so baby, bring it on
Baby, come and lemme show you what you came here for
'Cause it's you I adore, so meet me on the dance floorBaby girl, I'm tired of waitin' for your favorite song
Just come follow my lead so we can get it on
You've been starin' at me since I walked through the door
And baby, I can't take no more
