

If You Were My Love

Stevie Nicks

Tonight there are no saviors
This night outside my window
Wasn't anyone's fault
When the moon rolls over the mountain
You are lost in your dreaming
Where is the wild, white rose?
I tried to explain it
To someone who was crying
If you were my love
My hands reach for something
For someone that could tell me
Wasn't anyone's fault
Not anyone's fault With our crosses to bear
And our dreams that still live on
With our crosses to bear
And our dreams that still live on If you were my love
However momentarily
Ooh ooh If I were the one
Who watched over your sleeping
You would never have been frightened
At all
At all With our crosses to bear
And our dreams that still live on
With our crosses to bear
And our dreams that still live on
