"People Of The Night feat. Chris Arnott"
Open your eyes, it's all right
Just stay with me until the sunlight
You are surrounded by love
Don't cry
We are the people you can turn to every time
Don't cry
We are the people who will never judge you, never lie
Don't cry
We are the people who will start again, it never ends
Don't cry
We are the people of the night
We are the people of the night
We are the people of the night
Don't cry
We are the people you can turn to every time
Don't cry
We are the people of the night
We are the people of the night
We are the people of the night
Now your tears they fall like rain drops
And just like everything they don't stop
No oh oh, it keeps on happening
No oh oh, it keeps on happening
Used to believe in things like angels
See how everything has changed now
Oh oh oh, it keeps on happening
Oh oh oh
Don't cry
We are the people you can turn to every time
Don't cry
We are the people who will never judge you, never lie
Don't cry
We are the people who will start again, it never ends
Don't cry
We are the people of the night
We are the people of the night
Don't cry
We are the people you can turn to every time
Don't cry
We are the people of the night
We are the people of the night
We are the people of the night
