Our Savior Sleeps

Immolation

Child of promise
Where are you now?
Our saviour sleeps
Awake for usYour miracles are needed now
Carry us out of harm's way if you canHis children weep
And cry his name
Our saviour sleeps
Why won't he rise?Carry us as you said you would
Through the dark that clouds our worldWe trusted you
But you did not come through
The suffering you left with us
Will torture our lives forever
Child of promise
Where are you now?
Our saviour sleeps
Eternal nightCarry us as you said you would
Through the dark that clouds our world
