Your Disease

Palisades

I never seem to catch me right before I hit the floor
I never seem to get me and I'm coming back for more

I can't get it right
Self medicated
Dive down the bottle of the substance I've created
Bag of excuses
And I feel useless
Do you know how it feels to be hollowed out?

Cause I'm drowning
Just to catch my breath
I'm drowning
Till there's nothing left
There's nothing left

And I'm about to drown here
Do you hear me yet?
Drowning
Just to catch my breath

I'm at the starting line
When I've been left behind
You all keep going and going
Till I'm out of time

Is this medicine enough to cure?
Bring me to be your disease

And I won't
I won't
Be cured
Bring me to be your disease
[Disease]

I never seem to catch me right before I hit the floor
I never seem to get me, and I'm coming back for more

Drowning
Just to catch my breath

I'm drowning
Till there's nothing left
There's nothing left

I'm at the starting line
We've now run out of time
You all keep going and going [and going]

Is this medicine enough to cure?
Bring me to be your disease
[Whoa]

And I won't
I won't
Be cured
Bring me to be your disease

Get up, get up, get up!

When you're down to nothing
You always look for something
Even if it means
You become your own disease [x2]

So hold me closer
I need something to make me feel
To make me feel again

So hold me closer
I need something to make me feel
To make me feel

Is this medicine enough to cure?
Bring me to be your disease
[Whoa]

And I won't be cured
Bring me to be your disease
[Disease]
