Face Down

Monster Magnet

We'll have a good time baby, yeah
Well it's a planet of the apes and a third eye kind of thing
Well, let's all lay down and dig through the ground, yeah
To find the holy ride that'll make your thing go dingWhat mother earth gives back to man, yeah
Is running through my bones
But now's the time for the beautiful exchange, honey
And you ain't gonna do it all aloneWhen the sun blocks the moon and the stars goes down
I'll be floatin', squirmin' and laughin'
Next position
That begins face downThey're gonna miss their children, yeah
I mean I'm still alive but I'm almost gone
But now stands for everything
So get your ass down out on the playing groundBaby, will you slide me through the world?
I ain't working for the man, I'm an allosaurus, baby
Well, I'm sucking up more karma than I need
So have a supernova on meOh, when the sun blocks the moon and the stars goes down
I'll be floatin', squirmin' and laughin'
Next position
That begins face downWhen the sun blocks the moon and the stars goes down
When the sun blocks the moon and the stars goes down
When the sun blocks the moon and the stars goes down
