

Don't Give It Up

[Siobhan Donaghy](#)

This pressing feeling has gotta implode, oh
We fight the feeling but we can't ignore
Who can show us how
When what we want is right now Don't give it up
I heal and hide, forgive this hurt of mine
We all have the scars to show Remote controlling this total ache, oh
Internally it wants to destroy
Who can show us what will become of us Don't give it up
I heal and hide, forgive this hurt of mine
We all have the scars to show Don't give it up
(Don't give it up now, just live it up)
(Don't give it up and mess it up) I heal and hide, forgive this hurt of mine
(Don't give it up now, just live it up)
(Don't give it up and mess it up) Know what you're doing and what you came here for
You want to take them, hold them down
Who can show us love that holds no doubt Don't give it up
I heal and hide, forgive this hurt of mine
We all have the scars to show
(Don't you wanna, don't you wanna go?)
Don't give it up now, just live it up
Don't give it up and mess it up
