The Lunatic

Elefant

Manhattan, are you up or down
(I feel like dancing)
Manhattan, are you still around
(I'm only asking)
The city cries itself to sleep
There's no more traffic in the streets
The party is done, the party is done
The city sleeps tonight
The party is done, the party is done
It's time to say goodnight

I never thought you'd stay so long
(Call me romantic)
You entertained us now you're gone
(I start to panic)
I miss the way we used to laugh
I miss the smell of morning trash
The party is done, the party is done
The city sleeps tonight
The party is done, the party is done
It's time to say goodnight
