Hooked

Poptart Monkeys

She'll never be prom queen, ever since they saw that magazine
And it didn't do much good for you reputation
You can tell them all to go to hell
The second you hear the last bell
Nobody's gonna give a damn, come graduation time

One mistake you make is not going all the way
Let's show them we're here to stay heyayayay

Let's get hooked up, we'll get serious
We'll get messed around, fucking delirious
You take a chance on me, I'll take a chance on you
Let's do the wrong thing now before we stop and think it through

Leave it up to you that's cool
Cause I know you like skipping school
You really don't wanna go, to your recital
Favorite song is Rebel Yell
Ask who I am, but you won't tell
Think you got a crush on Mr. William Idol himself

One mistake you make is not going fast enough
Let's go before the going gets tough tououough

Let's get hooked up, we'll get serious
We'll get messed around, fucking delirious
You take a chance on me, I'll take a chance on you
Let's do the wrong thing now before we stop and think it through

Let's get hooked up, we'll get messed around again
Take a chance on me, I'll take a chance on you one more
Let's get hooked up, we'll get messed around again
Let's do the wrong thing now before we stop and think it through

Let's get hooked up, we'll get serious
We'll get messed around, fucking delirious
You take a chance on me, I'll take a chance on you
Let's do the wrong thing now before we stop and think it

Let's get hooked up, we'll get serious

We'll get messed around, fucking delirious
You take a chance on me, I'll take a chance on you
Let's do the wrong thing now before we stop and think it through
