

If I Lose My Way

Jericho Road

Have you been here before
Do you know this road I'm walking
Have you been out here when that cold North wind blows
Can you promise me
I'm gonna get to where I'm going
I'll trust you now like I trusted you before

But if I lose my way
Will you come find me
If I forget who I am
Will you remind me
It's a long, long road
And I'm not gonna make it on my own

Everytime I try to make it through without you
I lose my way, I stumble and I fall
Will you be my strength through the valley and the shadow
Will you be there to answer when I call

But if I lose my way
Will you come find me
If I forget who I am
Will you remind me
It's a long, long road
And I'm not going to make it on my own

I've known dark nights
But there were stars
I've seen stormy days
but the sun was never far away
I've known loneliness and pain
But I've felt the peace of heaven
And the love of your embrace

And if I lose my way
You will come find me
If I forget who I am
You will remind me
It's a long, long road

And I don't have to make it on my own

And if we lose our way

You will come find us

If we forget who we are

He will remind us

It's long, long road

And we don't have to make it on our own
