Fool Me

Anya

And you can fool me
Ill pretend theres nothing to be
You can fool me, Ill pretend theres nothing to be, to be, to be
I, I, I got so many reasons why
I can live without you
I got a crazy feel in my heart tonight
No I dont hope to get down on the floor
Miss spiriting telling me give me more
Your love is got me all out of control
I feel it with my body and my soul
And you can fool me
Ill pretend theres nothing to be
You can love till the sun goes down, down, down
you can fool me
Ill pretend theres nothing to be
You can love till the sun goes down, down, down
You like it when I take it down
Feeling that I want you
I got a crazy feeling in my heart tonight
No I dont hope to get down on the floor
Miss spiriting telling me give me more
Your love is got me all out of control
I feel it with my body and my soul
And you can fool me
Ill pretend theres nothing to be
You can love till the sun goes down, down, down
you can fool me
Ill pretend theres nothing to be
You can love till the sun goes down, down, down
you can fool me
Ill pretend theres nothing to be
You can love till the sun goes down, down, down
you can fool me
Ill pretend theres nothing to be
You can love till the sun goes down, down, down
