Slicing

Prong

Never had a thought so how can you see me?
A man without a mind can never judge evenly
Forever passing judgment compared to a fraud
I'll never pare up, I'll only distort your sight
Only distort your sight, only distort your sight
Only distort your sight, only distort your sightIt don't matter, knife in your hand
I'll cut you down with a knife in my head
It don't matter knife in my hand
You can never mend it with a knife in your headI want a slice, can I carve evenly?
A man with no part moves so passively
Can I cut you up, can I say you're a fraud?I want a slice, can I carve evenly?
A man with no part moves so passively
Can I cut you up, can I say you're a fraud?
You'll never pare up, I'll only destroy your size
Only distort your sight, only distort your sight
Only distort your sight, only distort your sightIt don't matter, knife in your hand
I'll cut you down with a knife in my head
It don't matter knife in my hand
You can never mend it with a knife in your headNever had a thought so how can you see me?
A man without a mind can never judge evenly
Forever passing judgment compared to a fraud
I'll never pare up, I'll only distort your sightKnife in my head, knife in my head
Knife in your head, knife in your head
