

# Shinji Ikari

## Airospace

It is cold in here  
I can hide behind my breath  
Light up and breathe in too much

It goes cold with a gunshot  
To be here it still feels nice  
I grow old after one shot  
I breathe in and it feels nice

I feel it's over  
Drop the light in here  
This is goodbye

It goes cold with a gunshot  
To be here it still feels nice  
I grow old after one shot
