

Trapped

Dead By April

(Try not to wake me)
Because of you I'm lying awake at night
All I'm seeing are pictures of you
As I close my eyes I fade my way
Into the loss of my dream world
It's a place of trust, will you meet me there?
There's no time to spare
Come on show me you care
Here we can make anything become real
All of my dreams are all I see
Try not to wake me
Can't you see all of my dreams are all I wanna see?
Try not to wake me
Try not to wake me
Because of you
My try's to not think of you
They just end up I one million thoughts
It's way to much to mention
See what I mean when you see my creation
It's a place of trust, I can meet me there
There's no time to spare
Come on, show me you care
What you believe in here will become real
All of my dreams are all I see
Try not to wake me
Can't you see all of my dreams are all I wanna see?
Try not to wake me
Try not to wake me
All of my dreams are all I see
Try not to wake me
Can't you see all of my dreams are all I want to see?
Try not to wake me
Try not to wake me
Trapped inside my own dreams
I'm not complaining
Leave behind a lie of any kind
Here it can disappear
All of my dreams are all I see
Try not to wake, me let me be

All of my dreams are all I see
Try not to wake me
Can't you see all of my dreams are all I wanna see?
Try not to wake me
Try not to wake me
All of my dreams are all I see
(I see)
Try not to wake me
Can't you see all of my dreams are all I wanna see?
Try not to wake me
Try not to wake me, try not to wake me
