Layne

[Staind](#)

I heard today that you were gone
I had to stop and sing along
The song they played to say goodbye
A song they gave, give me back lifeYou'll never fade
The words you gave
My life you saved
Your name was LayneAnd on that day a child was born
To someone who you helped along
And helped see through his darkest times
Because of you, this child, she is mineYou'll never fade
The words you gave
My life you saved
Your name was LayneThe words you said, you made me feel like they were all for me
The words you said, they will always be a part of me
The words you said, you made me feel like I was not alone
The words you said, you gave me all the strength to carry onSo to me you'll never fade
Your life you gave
My life you saved
Your name was Layne
