

Ball of fire

Gene Krupa

Scarlet hoverin my head
Pretty and red, pretty and red
Flowers dyin in their bed, oh, yeah Why is everyone crying
Dont you know you can see
Shining down on you and me, yeah And the ball of fire in the sky, yeah
Keeps watching over you and I, way up high
And the ball of fire in the sky, come on
Keeps watching over you and I, way up high And now the towers are fallin
Tumblin down, tumblin down
Oh, cant you hear the angels callin
Oh, yeah, listen Shinin through eternity
As it was, so it shall be, yeah And the ball of fire in the sky, yeah
Keeps watching over you and I, way up high, yeah
And the ball of fire in the sky
Keeps watching over you and I, you and I, yes, it does And the ball of fire in the sky, come on
It keeps watching over you and I, way up high, come on
And the ball of fire in the sky, yeah
Keeps watching over you and I, you and I, way up high And the ball of fire in the sky, yeah
It keeps watching over you and I, way up high
And the ball of fire in the sky, come on
It keeps watching over you and I, way up high
