

Talk Me Down

Ned's Atomic Dustbin

All these mistakes you say, "I've made"
Got me more laugh lines than things that felt right
How can you describe? How can you decide? Don't try to talk me down from here
Don't try to talk me down from here
Don't try to talk me out of her
Don't try to talk me down from here I rest my case, how your deceit lays
Your cards on the table, your eyes on the ceiling
How can you advise? How can you decide?
