

Moving On (LP Version)

The Dream Academy

"All out" cried the boy
And put the girl in danger
Whose only weapon was to believe in love
"All out" but don't say forever
Too late for re-arrangement
He's already thinking of another face
And she's drawing on the memory she can't eraseThey're moving on
Keep a moving it yeah
They're moving on
We'll make it this time
I know we're gonna make it this time
Now the weight of intention carried the motion
And the damage was over done
and was started as a bid for independence
Has ended with a starting gun
And he's wishing that he never said "All out"
But the words just get lost in space
And you know it's such a lonely place
When you realize you've lost that face
She's moving on
Counter revolution has taken placeWe're moving on
Keep a moving it yeah
We're moving on
We'll make it this time
I know we're gonna make it this time
