

Scared of Love

Chris Echols

When you say you love me do you mean it
Or is it just something we sposed to say
Would you go to war girl if I needed
Or switch on me and take your love away
They said they would ride
They said they would always be right by my side
That was a lie
They told all my secrets
I use to confine
Shit on my pride
Look me in my eyes and tell me it's all mine
I should of known betta
Incase you been wondering why
I've been through
Some things
Makes me
Afraid
Teach me
To believe
In better days
Might take some time, but I'm working to change
Blessed is the woman that deal with my ways
This shit ain't easy I said that to say
Usually don't kiss em much
Again I was giving up
They took advantage of
That threw away the trust
Girl I'm just scared of love x2
[Chorus]
Baby I'm just scared of love
Scared of love x2
Baby I'm just scared of love
Scared of love x2

But you make me wanna take that risk yea
Dive in head first
N tell me now
She just help me build my net worth
And brought me nothing but some problems and

that [error] work
And herself she just wanna build my self worth
Yea
Just promise me youâ€™ll never leave
That your love is guaranteed
Baby please donâ€™t do this to me

[Hook]
