Angel Eyes

Jerry Cantrell

Homely, thick in mind
Never listen
Worn, tired, siren drawn
Tunnel visionDon't forget
This chance only live once
Sprung, hypnotized by light
Had to get someGet it all
She said, "I forgive you
Don't regret our time
You've got to move on, love"Angel eyes
Four years and still I dream
Agonize
Such beauty not since seenBow down, piper leading
You were one
Hungry, took the prize
Then you got dumbDon't live out your life
Like a sad song
Sprung, hypnotized by light
Had to get someGet it all
She said, "I forgive you
You must too or die
You've got to let me go"Angel eyes
Four years and still I dream
Agonize
Such beauty not since seenAngel eyes
Your face is all I see
Agonize
Forever haunting meAngel eyes
Four years and still I dream
Agonize
Such beauty not since seenAngel eyes
Agonize
Forever haunting me
Angel eyes
