

Being With My Baby

Taylor Swift

All is quiet in the world tonight
Counting stars and fireflies
This summer sings a lullaby
Of just me and my baby
On the hood of his daddy's car
Pass around his old guitar
Bet mama's wondering where we are
Just me and my baby
The world is spinning 'round
'Cause of just what I found
Ooh, life's so sweet right here
Ooh, keeping it young and crazy
Ooh, just want to stay right here
'Cause nothing's quite like being with my baby
Driving home by the riverside
Wishing I could slow down time
Faking pictures in my mind
Of me and my baby

The car pulls up and I'm home too late
We didn't take that interstate
The back road was a better way
For me and my baby
The closer that we get
Ooh, I can't leave yet
Ooh, life's so sweet right here
Ooh, keeping it young and crazy
Ooh, just want to stay right here
'Cause nothing's quite like being with my baby
Both know what we found
So we turned that car around
Ooh, life's so sweet right here
Ooh, keeping it young and crazy
Ooh, just want to stay right here
Ooh, and be with my baby
Ooh, yeah and be with my baby
