Boots

Joey + Rory

Started out just nails and leather
Built to last and made for weather
I cant think of nothing better than what I'm wearing on my feet
They make me tallen than I really am
Ain't nothing they can't withstand
A symbol of the workin man
And old cowgirls like meBoots are made for saw dust floors
Stirrups on a quarter horse
To kick yourself when you've been a fool
Climbing up on bar stools
Two steppin under neon lights
Ain't to bad in a bar room fight
Kickin open swinging doors
Thats what boots are for(Musical Interlude)Been re-soled a dozen times
Crushed some cans and soak some wine
Ah but thats what makes 'em shine
They're a part of me
They've seen lovers come and go
Til we met the right pair at the rodeo
Oh thats just the way love goes
Some things are meant to beBoots are made for saw dust floors
Stirrups on a quarter horse
To kick yourself when you've been a fool
Climbing up on bar stools
Two steppin under neon lights
Ain't to bad in a bar room fight
Kickin open swinging doors
Thats what boots are forKickin' off when you're tired and sore
Thats what boots are for.
