

# Life Less Frightening

## Rise Against

Suffering from something we're not sure of  
In a world there is no cure for  
These lives we live test negative for happiness Flat line, no pulse but eyes open  
Single file like soldiers on a mission  
If there's no war outside our heads  
Why are we losin'? I don't ask for much  
(Life less)  
Truth betold I'd settle  
(Frightenin')  
For a life less frightenin'  
(Life less)  
A life less frightenin'  
(Frightenin') I don't ask for much  
(Life less)  
Truth betold I'd settle  
(Frightenin')  
For a life less frightenin'  
(Life less)  
A life less frightenin'  
(Frightenin') 'Hang me out to dry, I'm soakin'  
With the sins of knowin'  
What's gone wrong but doing nothing I still run Time again I have found myself stuttering  
Foundations pulled out from under me  
This breath is wasted on them all  
Will someone answer me? I don't ask for much  
(Life less)  
Truth betold I'd settle  
(Frightenin')  
For a life less frightenin'  
(Life less)  
A life less frightenin'  
(Frightenin') I don't ask for much  
(Life less)  
Truth betold I'd settle  
(Frightenin')  
For a life less frightenin'  
(Life less)  
A life less frightenin'  
(Frightenin') 'Is there a God tonight

Up in the sky or is it empty just like me?  
(Just like me?)  
A place where we can hide out from the night  
Where you are all I see  
(Where you are all I see)  
So blow a kiss, goodbye, then close your eyes  
Tell me what you see  
(Tell me what you see)  
A lifetime spent inside this dream of mine  
Where you are all I see I don't ask for much  
(Life less)  
Truth betold I'd settle  
(Frightenin')  
For a life less frightenin'  
(Life less)  
A life less frightenin'  
(Frightenin') I don't ask for much  
(Life less)  
Truth betold I'd settle  
(Frightenin')  
For a life less frightenin'  
(Life less)  
A life less frightenin'  
(Frightenin')
