

# Bruised

## The Hanks

Rumpled and tired  
You still fit the part  
Of the one I wanted from the start

We're talking til dawn  
About our tangled past  
As years of words come out so fast

We both know it's a week  
Til I'm going away  
But we can't help act like I might stay

It's late when we kiss  
Later still when we part  
And with my words I'll pierce your heart

Blackmail me  
Black and blue  
I'll clean up  
All for you  
2x

So sorry that I  
Didn't think it all through  
A whim for me, heartache for you

You kiss me goodbye  
Say 'I wish you could stay'  
With a fading smile you turn away

Blackmail me  
Black and blue  
I'll clean up  
All for you  
6x

All for you  
All for you
