

Sharp. Cool and Collected

Beatsteaks

I light the stars, the city calls
I guarantee my heart, I get along
I can't go wrong
And now I am above it all

'Cause when it comes to love
I stay sharp, cool and collected
If the whole world goes kaput
I can take it, I get all I ever wanted
Stay sharp cool and collected

I look for brains, you got the skills
Your walk is mean, you fit the bill
I work like mad to shuck and jive
No matter how you spin this thing
