There exists no force That could ever hold us back From the mic comes forth The cause to counteract There exists no force That could ever hold us back Unified expression Armed with intention Together were stepping forward Side by side allied not competition Collective in vision uplifting Unity creates steps to propel The mass who excel through walls keeping them down oh Who be the soul rebels coming with the cause So all my soldiers put your hands up Fusing gaps bridging the journey Tou rourou Taku rourou Kia ora e te iwi Community powerful Invincible this entity pure strength exhumed through unity Galvanised marching forward My people lets unite So dont worry about a thing cause every little thing is going to be alright The movements coming get on board or jump ship We aint going no where if the force aint equipped So heres what we gone do, let our powers combine Generate the voltron effect components intertwine Barriers fall, similar to riot squads Limitless exploration we roam, gather resource Reaching above and beyond, given the chance we form A greater alliance more capable to perform Against the hate we decrease and disconnected energies Disinfecting all threats of dislocating our peace As long as were moving in a positive direction It dont matter your complexion or even what section [Chorus:] There exists no force That could ever hold us back From the mic comes forth The cause to counteract There exists no force That could ever hold us back Armed with intention Unified expression Together were stepping forward The question remains 'are you on board the bus?' We take pride in evry step like the million man march when its time to unite Im positive you will know send the message down the pipe and let other people know we coming to sever humanities undying thrist For destruction our conjunction will resemble cloudburst I speak the spoken words dilated peoples rehearse When worst comes to worst my tangata come first I said friction buries our people, disjointed we gather dust No vision to excel, Randomness is killing our thrust Or should I say drive, Merging the gaps within our armour Only together is power possessed as reflection of mana Woyooo [Chorus:] There exists no force That could ever hold us back The cause to counteract From the mic comes forth There exists no force That could ever hold us back Armed with intention Unified expression Together were stepping forward Gee was born on one of the 12 brothers His birth name was given Simeon For many of my years his life remained anonymous Taurus the stubborn bull of May who led the way Lead me astray but still I rise to face the day United as one we stand together heads high Together everyone achieves more back to back shoulder to shoulder the ultimate force As we row this waka in time and stand unified Together we stepping forth no one can hold us back We like the fantastic fobs on a positive attack On a quest to excel past the negativity We gonna shine in unity Let me see you hold on (together) So go on (forever) Head strong As 1 mind, body and soul Nesian be letting you know [Chorus:] There exists no force That could ever hold us back From the mic comes forth The cause to counteract There exists no force That could ever hold us back Armed with intention Unified expression Together were stepping forward [Thanks to one_ticklish_chic@hotmail.com for these lyrics]
