Snakes & Ladders

Switches

We're tired of all these orchestrated fears
The war on love is ever drawing nearBut I guess it's like snakes and ladders
Shakes a nation's confidence, calling out for providence
Snakes and ladders, as they climb up we all slide downThe children leave their loyalties at home
The cynic's minds have granted them to roamBut I guess it's like snakes and ladders
Barely is it tropical, only misanthropical
Snakes and ladders, as one goes in a score come outOoh, snakes and ladders
Ooh, the world will shatter
Ooh, snakes and ladders
Ooh, the world will shatter
Ooh, snakes and ladders
Ooh, the world will shatterYou know it's coming like snakes and ladders
We calling out for providence, shakes a nation's confidence
Snakes and ladders, as one goes in a score come out
As they climb up we all slide down
