

Outside Society

U.K. Subs

Try to get a job, try to get straight.
I get a door in my face every step I take.
Fighting back I will always be outside society. When I jump on a bus, when I ride on a train.
Just to go to the store can be a pain.
Outside society. If I join the system.
It would be just an act - So fuck you I'm striking back.
So I live outside society.
