

Space Girl Blues

Devo

Space girls are as cold as ice
They'll kiss you once and kiss you twice
You'll shiver and shake and then turn blue
Next you got the space girl blues
I want your mechanism
Give me your mechanism
Space girls always smoke for taste
Swallow butts and leave no waste
Sado-maso is the rule
You want them they don't want you
Just to show that they don't care
They'll bite your face and burn the hair
The sun comes up the moon boo-hoos
Next you got the spacegirl blues
I need your mechanism
Destroy your mechanism
Destroy it!!
