

Can You Roll Her (2007 Remaster)

UFO

Fast as light our jets were burnin'
On the road a distant siren song
Hands upon my engines growin'
Vincent's deep throat breathin' out so strong
I can hold her, can you roll her Ride her like there's no tomorrow
Siren's song sure is growin' stronger
Shadow reached a high note
And in the distance [electric lights]++++ no longer I can hold her, can you roll her
I can hold her, can you roll her
I can hold her, can you roll her Fast as light our jets were burnin'
On the road a distant siren song
Hands upon my engines growin'
Vincent's deep throat breathin' out so strong
I can hold her, can you roll her
