

There She Goes

Bob Marley

There she goes with the pieces from my heart
There she goes and now my teardrops start
And here I go once again
Through these lonely heartaches and pain
That`s all remain
Now I know love is a guessin` game
Let me tell you and now imma all alone
and now im all on my own
Who`s gonna put back the pieces to my broken heart once again
Now I know love is a guessin` game
And here I go once again
Through these lonely heartaches and pains
thats all remain
Now I know love is a guessin` game
everyone can see she walked out on me
...???...
im free
im free
im free
free like a bird in a dream
there she goes
there she goes
and now im free
there she goes
...???...
there she goes
and i can understand :)
