

I Just Got Some

Rod Stewart

Well, I know y'all look as if you need some But I just got some
I surely got some
The doctor prescribed some
I surely need some
Have to, have to have some, baby
Oh, I just went out and got some My pockets ain't jinglin' and I'm gettin' fat
You know you can't hide it, I know where it's at
My pockets are as heavy as a chunk of lead
I just got a taste of her meat and veg I had to have some
Sure did need some
Doctor prescribed some
Had to, had to, had to have some baby
Y'all know I look as if I need some
Oh, I just went out and got some, oh Yeah You would not help me when you really could
But right now baby, you can't do me no good
Cause I just got some
Had to, had to, have some
Doctor prescribed some
Had to, had to, had to have some baby
Y'all know I look as if I need some
Oh, I just went out and got some, oh Yeah You would not help me when you really could
But right now baby, you can't do me no good
Cause I just got some
Had to, had to, have some
Doctor prescribed some
You all know I look as if I need some I just got some
Had to had to have some, baby, oh
I just got some
Everybody knows that I need some
The doctor even prescribed me some
Oh, yeah
