

Feel It Comin' On

Sara Evans

What's this, your kiss
Is as cold as the fallen snow
And your eyes cannot disguise
There's a secret in your soul
Well did you think that I
Was born yesterday
Well I may be blind
But I can hear what you won't say and [Chorus]
I feel it comin'
I feel it comin' on
I feel it comin' on
This love is dead and gone
And i know it won't be long
'cause I feel it comin' on A cold spell in hell
That's when I'll take you back
If you have been untrue
There's nothin left to do but pack your bags
And sleep in the bed that you made
Well you'll wake up cryin'
Callin' out my name, my name [Chorus] Comin' on like the morning sun
Like the summer rain
Like the river runs
Like the ocean waves
Like the stormy sea
Like the flood of tears
Wash over me [Chorus] Yes, I feel it comin' on
Lord, I feel it come, comin' on
