Down for Life

Testament

When I see my brother
What I see is like no other
What we had forever lost
Can't deny our friendship
Feeling like it's time to end this
Bad relation ripped apartWe're young and disarranged
We didn't know it any other way
We were grown, we're still the same
People see us sufferingI am not about to run away
Turn my back to him
In his darkest hour
Give him will to fight
Antagonize his thoughts
See him thru his toughest times
Purify his weakened heartAll the friends, we feel the same
The way it was, back in the day
The more we change, he stays the same
Will we ever see our friend again?I feel that
I can't protect my friend from himselfAll I've got
Are these lessons learned in life
The lessons I've been taught
Still remain inside my thoughts
Even as we speak
Who has trouble as it seems
He'll always be a friend of mine
The way it was
And always will beWe're young and disarranged
We didn't know it any other way
We were grown, we're still the same
People see us sufferingI feel that
I cannot help my friend help himselfYou can't hear what I say
Never going
Still friends down for life
Can you still fight?
Fight, fight, fight, fight, fightAll I've got
Are these lessons learned in life
The lessons I've been taught
They still remain
Inside my thoughts

Even as we speak
Who has trouble as it seems
He'll always be a friend of mine
That's the way it was
And always will beIn the end it's plain to see
What kind of friend he has been for me
All along he could never see
Who he was and always will be
