Fallen

Pitty Sing

Start my soldiers, ripping through my land
Take my horses, drown them in the sand
And tear down my heart and tear down my heart
And love me, nobody loves me
So I'll just stay at home [Incomprehensible] overdose
On coffee, nobody wants me
So I'll just stay in bed all night
And call me, nobody [Incomprehensible] me
So I'll just go outside and overdose on pollen
Now that I've fallen in love
And take my hammer, kill the men in dreams
And let the churches pray unto my screams
And give them my heart and give them my heart
And love me, nobody loves me
So I'll just stay at home [Incomprehensible] overdose
On coffee, nobody wants me

So I'll just stay in bed all night
And call me, nobody [Incomprehensible] me
So I'll just go outside and overdose on pollen
Now that I've fallen in love
Oh, I'll never know the tide
Oh, I'll never know your mind
Oh, I'll never know your eyes
And love me, nobody loves me
So I'll just stay at home [Incomprehensible] overdose
On coffee, nobody wants me
So I'll just stay in bed all night
And call me, nobody [Incomprehensible] me
So I'll just go outside and overdose on pollen
Now that I've fallen in love
Now that I've fallen in love, in love
