

Make It Good

Fink

And if it's on it's on for good, sure
'Cause when it's gone it's gone for good, let me tell you
And if you stayed over, you know we would, if we could

Put it back together, piece by piece
Put it back together, make it good

If I breathe in the future, breathe out the past
Savor this moment as long as it lasts, let me tell you

Put it back together, piece by piece
Put it back together, make it good

And if you stayed over, Iâ€™d make it so sweet
I'd make you remember, baby, from your head to your feet

And if you go now, babe, we'll never know
And if you go now, babe, we'll never know
And if you go now, babe, we'll never know how it ends

Make it good
Make it good
Make it good
