Disconnected

Will Young

You're looking away from me, won't turn your face to me
Stuck in a space that's totally silent
People are staring, wanna get out of here
Go somewhere, somewhere you're gonna listen
We gotta talk baby, boy this cannot go on
We're supposed to be in love, we got to get a long
Why are we disconnected? This can't be right
Love should be easier, should be the time of our lives
You know it could be incredible so let's not fight
Love should be easier, should be the time of our lives, of our lives
Stop walking away from me, too far away from me
I got things to say and you're just ignoring
The fact that I'm trying here to make it better
We're in a crisis and you think it's boring
We gotta talk baby, boy this cannot go on
Supposed to be in love, why does it feel so wrong?
Why are we disconnected? This can't be right
Love should be easier, should be the time of our lives
You know it could be incredible so let's not fight
Love should be easier, should be the time of our lives, of our lives
All we need is, it's so easy
To help each other and let love breathe
Why are we disconnected? This can't be right
Love should be easier, should be the time of our lives
You know it could be incredible so let's not fight
Love should be easier, should be the time of our lives
Why are we disconnected? This can't be right
Love should be easier, should be the time of our lives
You know it could be incredible so let's not fight
Love should be easier, should be the time of our lives, of our lives
